Dear Dr. Chernov;

I am a Walgreens employee for 10 years. You had give
a sample of your acne stick and I have been using
a couple of weeks. When you gave it to me I had
of pimples on my nose. After the first day of apply
3-4 times that day, I had seen a difference. It is
drying them up as well as the black-heads. I am
using it faithfully everyday, not just on problem
but my whole face.

As I had told you I have suffered with acne son
years now. I had a dermabrasion done 15 years a
no help. I've tried a lot of different products
as a lot of different medicines and no help. The
product is the only thing that has helped. I hope
I will continue to suggest your product to others
great!

Sincerely,
Debbie Love
